INSTALLATION TIME

A mall retailer, with over 750 stores in the US & Canada, approached INC to help manage logistics of low voltage cable installation and POS connectivity for new stores, relocations and service work.

"INC's reliability to get the job done efficiently allows business to run smooth and without interruption."

THE GOAL

Provide a standardized installation process to provide uniform infrastructure for remote IT troubleshooting, while minimizing store downtime.

THE APPROACH

- Identified cabling, cable management, and technology requirements for all sites.
- Coordinated with general contractors to identify installation date and communicate completion.
- Managed network of technicians to service locations throughout the US and Canada.
- Color-coded installation materials for easy identification in the future.
- Dressed the cables for safety and a professional look.
- Tested cabling.

RESULTS

- Performed 2,100 services since 2005.
- Met every deadline, usually completing the installation within a day.
- The client has a reliable partner to support their growth throughout the country.
